There are numerous reasons why the current "one-size-fits-all" approach to the treatment of bipolar disorder is inadequate. First, the current approach is based on a model of bipolar disorder that is based on a single, underlying biological mechanism. This model is based on the idea that bipolar disorder is a result of a chemical imbalance in the brain. However, research has shown that bipolar disorder is a complex disorder that involves a combination of genetic, environmental, and psychological factors. # Christian teachers leaving Basilan

**MANILA, CITY**—Basilan, leaving its then safety have been threatened from their posts as teachers in Basilan and a monitoring those of kidnapping threats to education officials.

Most questions were raised when Basilan was taken over by the Islamic Movement in Mindanao (IMM) in 2001. The group, which is a splinter of the Moro Islamic Liberation Front (MILF), has been fighting for an independent Islamic state in Mindanao.

Education officials in Basilan have been urged to leave the island as the situation remains volatile.

Some teachers have been kidnapped, and others have been threatened. The situation is so dire that many are considering leaving the island.

## Vidal retires as top Church exec in Cebu

**By Susan Fernandez**  
Cebu, Philippines

Archbishop Oscar Vidal, 72, has announced his retirement from the position of Archbishop of Cebu, the Philippines' second largest archdiocese, after 15 years in the post.

Vidal, who was appointed Archbishop of Cebu in 1998, said he was retiring to spend more time with his family and to pursue his interests in the arts and sciences.

He will be succeeded by Archbishop Jose Luis Advincula, who has been appointed to the position by the Holy See.

Vidal's tenure as Archbishop of Cebu was marked by significant developments in the archdiocese, including the construction of new churches and the establishment of various social service programs.

## VP promises land titles for victims of Pinatubo

**By Times Staff**

MANILA, Philippines—President Joseph Estrada has promised to grant land titles to the victims of the 1991 eruption of Mount Pinatubo, a move that has been welcomed by the affected communities.

The President said that the government is committed to providing the victims with the land they need to rebuild their lives and livelihoods.

The victims of the eruption have been living in temporary housing and have been struggling to find ways to make a living.

MANILA, Philippines—Six people were stopped by police in a black SUV, and a black postal delivery van was also stopped, according to police officials.

## Monument rises for veterans of Korean War

**By Susan Fernandez**  
Cebu, Philippines

A monument to the veterans of the Korean War is being erected in Cebu, the Philippines, to honor their service and sacrifice.

The monument is a symbol of the government's appreciation for the veterans' contributions to the country's defense.

The veterans of the Korean War played a significant role in the Philippines' defense during the conflict.

The monument will be dedicated to the veterans in a ceremony that will be held in Cebu.

The monument is a testament to the bravery and sacrifice of the veterans of the Korean War.

Figure 1 is a schematic diagram of the experimental setup. It shows a cross-section of a polymer film on a substrate. The film is composed of two layers: a top layer of polymer solution and a bottom layer of polymer film. The substrate is labeled 'Substrate'. The polymer solution layer is labeled 'Polymer solution' and the polymer film layer is labeled 'Polymer film'. The diagram illustrates the process of polymerization and the resulting morphology of the polymer film.

# Over 500 dead in Brazil's worst-ever disaster

At least 539 people were killed and 15 others missing in a massive landslide in Brazil's Amazon region, the worst disaster in the country's history, officials said Tuesday. The landslide occurred in a remote area of the state of Amapá, where a large area of land collapsed into the Atlantic Ocean, creating a massive wave that hit a nearby village. The disaster was caused by heavy rains that had been falling for several days, saturating the ground and triggering the landslide. The area is a remote part of the Amazon rainforest, and the village was one of the poorest in the region. The disaster has left a large number of people homeless and has caused significant damage to the local infrastructure. The Brazilian government has launched a search and rescue operation, but the terrain is difficult and the weather is still poor. The disaster has also caused significant damage to the environment, with large areas of forest destroyed and the local wildlife displaced. The Brazilian government has promised to provide financial aid to the victims and to rebuild the destroyed infrastructure. The disaster has also led to a renewed focus on the safety of remote areas in the Amazon region.

## Clinton assails Arab leaders

Says without reforms — threatens risking sinking in Syria

U.S. Secretary of State Hillary Clinton assailed Arab leaders Tuesday, saying they were not doing enough to reform their countries and that they were risking the sinking of Syria. Clinton said that the Arab League's decision to suspend Syria was a "disappointment" and that the United States would continue to work with the Arab League to bring about a resolution to the crisis. She also said that the United States would continue to support the Syrian opposition and that it would not accept any deal that would allow Assad to remain in power. Clinton's remarks came in the wake of the Arab League's decision to suspend Syria, which was seen as a major step towards resolving the crisis. However, Clinton's criticism of the Arab League's decision suggests that the United States is not fully satisfied with the outcome. The United States has been a strong supporter of the Syrian opposition and has been critical of Assad's regime. Clinton's remarks are seen as a warning to the Arab League that the United States will continue to support the opposition and that it will not accept any deal that would allow Assad to remain in power.

## Australian city digs out from jerk, sticky muck

Australian city digs out from jerk, sticky muck. The city of Melbourne, Australia, is struggling to deal with the aftermath of a severe weather system that hit the city last week. The weather system brought heavy rain and strong winds, causing significant damage to the city's infrastructure. The city's roads are covered in a thick layer of mud and debris, and many of the city's buildings are damaged. The city's residents are also suffering from the aftermath of the weather system, with many homes and businesses damaged. ## Poland protests Russian report on air crash

Poland protests Russian report on air crash. The Polish government has expressed its strong opposition to a Russian report on the crash of a Polish military aircraft in Syria. The report, which was released by the Russian Ministry of Defense, claimed that the aircraft was shot down by Syrian rebels. The Polish government, however, insists that the aircraft was shot down by a Russian missile. The Polish government has also accused the Russian government of covering up the truth about the crash. The Polish government has also demanded that the Russian government provide more information about the crash. The Polish government has also expressed its concern about the safety of Polish citizens in Syria. The Polish government has also announced that it will send a delegation to Syria to investigate the crash. The Polish government has also announced that it will provide financial aid to the victims of the crash. ## In crisis before a test, U.S. offers extra solution

In crisis before a test, U.S. offers extra solution. The United States has offered an extra solution to the crisis in Syria, in the form of a new peace plan. The plan, which was announced by the U.S. Secretary of State, calls for a ceasefire between the Syrian government and the opposition. The plan also calls for the withdrawal of Russian troops from Syria. The U.S. Secretary of State said that the plan was a "significant step" towards resolving the crisis. The plan has been welcomed by the Syrian opposition and by the United Nations. However, the Syrian government has rejected the plan, saying that it would not accept any deal that would allow Assad to remain in power. The U.S. Secretary of State has said that the United States will continue to work with the Syrian opposition and that it will not accept any deal that would allow Assad to remain in power. The U.S. Secretary of State has also said that the United States will continue to support the Syrian opposition and that it will not accept any deal that would allow Assad to remain in power. # Globe cuts data roaming fees for Filipino travelers

Taps partnership with regional carriers

By Peter G. Lopez

MANILA, Sept. 10 (AP) — Globe Telecom Inc. has announced a partnership with regional carriers to offer Filipino travelers a significant discount on data roaming fees. The move is part of a broader effort to make it easier for Filipinos to stay connected while abroad.

The partnership, which is the first of its kind in the Philippines, will allow Globe customers to use their mobile phones for data roaming at a much lower cost than before. The discount is expected to be in the range of 50 to 70 percent, depending on the destination and the carrier. The move is expected to be a major relief for Filipino travelers, particularly those who rely on their mobile phones for work and personal communication.

**Abstract**—The purpose of this study was to determine the effect of a 12-week training program on the heart rate (HR) and blood pressure (BP) of sedentary, middle-aged men. The subjects were divided into two groups: a control group and an exercise group. The exercise group performed a 12-week training program consisting of aerobic and resistance exercises. The HR and BP were measured at baseline and at the end of the 12-week program. The results showed that the exercise group had a significant decrease in both HR and BP compared to the control group. The HR decreased from 72 to 68 beats per minute, and the BP decreased from 120/80 to 110/70 mmHg. The control group showed no significant changes in HR and BP. The findings suggest that a 12-week training program can effectively reduce HR and BP in sedentary, middle-aged men.

**A:** That's all we need! It'll be a real challenge. But I think it will be worth it. We'll have to work hard, but we can do it.

1. The first step is to identify the problem. This involves understanding the current situation and what needs to be changed.

**Three words spell disaster**

**By Tom Igo**

As I sit at my desk, I am struck by the fact that the only thing I can think of is the word "disaster". I am not sure if this is a good thing or a bad thing, but I am sure it is a sign of something. I am sure that I am not alone in this. I am sure that many of you are also thinking of the word "disaster". I am sure that you are also thinking of the word "disaster". Figure 1 consists of two scatter plots. The left plot shows the relationship between the number of children (X-axis) and the number of children in the household (Y-axis). The data points are scattered, but there is a general upward trend, indicating a positive correlation. The right plot shows the relationship between the number of children (X-axis) and the number of children in the household (Y-axis). The data points are scattered, but there is a general downward trend, indicating a negative correlation.

## Is safe driving in SUVs really a gender issue?

Safe driving in SUVs is a topic that has been discussed for years. While it is often assumed that SUVs are safer than other vehicles, there is still a need for education and awareness.
